SUMMARY

Full-stack developer building web apps with React, Next.js, TypeScript, Node.js and MongoDB. As a freelancer, I have delivered an order management system and a restaurant POS system to clients, and I completed a full-stack internship on a live learning platform. I work methodology-first: user stories and epics, then screen design, then screen-by-screen implementation. Trilingual (Arabic, Turkish, English), with experience building Arabic RTL and multi-language interfaces.

EXPERIENCE

Freelance Full-Stack Developer

2026 – Present · Remote

OMS Global — Order Management System *(delivered to a client)*

Next.js 14 · TypeScript · Tailwind · Node.js · Express · MongoDB · JWT

- Full order lifecycle for sales and shipping teams: creation, approval stages, shipping and customer tracking from one dashboard
- Public tracking page with secure tokens (no login), bulk actions, auto-built customer database
- KPI dashboard with charts, Excel/PDF reports, server-side role permissions (Admin/Sales)
- Arabic (RTL), English and Turkish UI with dark/light mode

Restaurant Management & POS System *(for a restaurant client)*

Next.js · Node.js · MongoDB

- Cashier/POS screens built for fast keyboard-and-mouse use, with shift-closing receipts
- Mobile-first admin panel for the owner, installable as a PWA
- Responsive design based on the restaurant's brand; being deployed on a Hostinger VPS with its own domain

Full-Stack Developer Intern — Habib Academy

06/2026 – 08/2026 · İzmir / Remote

Instructor: Mahmoud Habib. After completing Mag Camp, I did a two-month full-stack development internship at Habib Academy, working on habib-academy.tech, a live Next.js learning management system.

- Built REST APIs with Node.js and Express.js, including JWT authentication and role-based access control
- Worked with databases using MongoDB, Mongoose and Firebase
- Deployed projects on Vercel and a VPS

TECHNICAL SKILLS

Frontend	React · Next.js · TypeScript · JavaScript · HTML · CSS · Tailwind CSS · Bootstrap · shadcn/ui · Framer Motion · Zustand · React Hook Form · Zod · Recharts
Backend	Node.js · Express.js · REST APIs · JWT · bcrypt · Role-based access · Multer
Databases & Services	MongoDB · Mongoose · MongoDB Atlas · Firebase · Cloudinary · Resend · EmailJS · iyzico
DevOps & Tools	Git · GitHub · Vercel · Hostinger VPS · PM2 · DNS · Vite · VS Code · Claude Code
Other	Arabic RTL & multi-language UI · Responsive design · Dark/light themes · Excel/PDF export

PROJECTS

HR Management System *(for a client company)*

React · Express.js · MongoDB

- Core HR, attendance, payroll and recruitment for a small/medium company

ITDS — IT Desk System

Next.js 14 · MongoDB

- Internal IT support platform with an Arabic RTL interface, built from user stories to screen-by-screen implementation

GlowCart — Makeup E-commerce

Next.js 14 · Firebase · Zustand · Claude API · iyzico · **live site ↗**

- Online store with product data from a Makeup API, AI features and iyzico payment integration (in progress)

Cozy Crochet — Pattern Showcase

Vercel · **live site ↗**

- Portfolio site for the crochet patterns I design and sell on Etsy

Supermarket POS

Point-of-sale system for the Egyptian market

- Scoped and built from 43 user stories across 14 epics

Personal Finance System

- Modules for income, expenses, accounts, cash, debts and an overview dashboard

Personal Portfolio

React 18 · TypeScript · Vite · Framer Motion · **live site ↗**

- Custom animated design with scroll reveals, smooth scrolling and a working contact form (EmailJS)

Other projects: Sugar Bloom (cake & donut shop site), Halaflora (flower shop site), Al-Osta (appliance repair business site), StreamVibe, Aleppo Kitchen

EDUCATION & TRAINING

Mag Camp — Front-End Development Track

06/2025 - 03/2026 · Online

Instructor: Abdulrahman Alaa. A comprehensive program in modern front-end development, completed with a graduation project.

- Learned and applied HTML, CSS and JavaScript fundamentals
- Built interactive user interfaces with React
- Styled responsive designs with Tailwind CSS and Bootstrap
- Managed projects and version control with Git and GitHub
- Used Vite for fast development and modern build workflows
- Gained hands-on experience through practical projects and teamwork
- Built modern web apps with Next.js (App Router) and TypeScript
- Used libraries such as Zustand, React Hook Form, Zod, Framer Motion and shadcn/ui
- Designed Arabic RTL, multi-language, responsive interfaces with dark/light themes

High School Diploma — Açık Öğretim Lisesi

2025

LANGUAGES

Arabic — Native

Turkish — Native-level fluency · C1, TÖMER

English — Intermediate · B1
